

Functional Enhancements

This document provides details of several minor enhancements to the system. These new features provide an improved user experience without the need to change the way you currently work.

1: Read Only access for customers:

The new Read Only access profile allows customers to log into PlanChexx to view and print their hygiene procedures. This profile also provides access to all relevant product data via the Information area of the system.

Note: Read Only access does not allow users to edit or approve any procedures within the system.

2: Customer Logo:

The customer logo is now displayed on all pages of the cleaning brochure, this includes:

- Cover Sheets
- Contents Page
- Procedures
- Product Symbol Sheets
- Check Sheets

PlanChexX.Net		DAILY CLEANING CHECKLIST														
Beech Foods - Saltash		WEEK COMMENCING														
Area	Item	Proc. Ref	MONDAY		TUESDAY		WEDNESDAY		THURSDAY		FRIDAY		SATURDAY		SUNDAY	
			OP	RC	OP	RC	OP	RC	OP	RC	OP	RC	OP	RC	OP	RC

3: Previewing translated procedures within Print Maintenance

All translated procedures can now be previewed within the Print Maintenance area before printing by selecting the required language and clicking on the preview link

Administration		Procedures		Libraries		Information		User : Wayne Ducker	
Print Maintenance								<input type="button" value="Save Print Order"/> <input type="button" value="Create Document"/>
