

PlanChexX.Net

Application Enhancements May 2009

The EcoChexx team are pleased to announce a number of enhancements to the Planchexx module that are available for immediate use. These are designed to provide improved system flexibility, better access to a wider information base as well as enhanced document integrity.

Procedure Maintenance

Library Print Functionality.

Print Maintenance has been extended to allow a user to produce printable documentation from the Ecolab and Client Libraries. This functionality is accessible by selecting the location to print from ("Procedures", "Ecolab Library" or "Client Library").

Selectable Print Location.

The screenshot displays the PlanChexX.Net web application in a Windows Internet Explorer browser window. The page title is "Welcome to Planchexx - Windows Internet Explorer" and the URL is "https://www.ecochexx.net/planchexx/buildframe.asp". The browser's address bar shows the URL, and the page content includes the PlanChexX.Net logo and navigation links for "Logout", "News", and "Support".

The main content area is titled "Procedure Documentation" and features a sidebar with a navigation menu containing the following items: Administration, Procedure Maintenance, Procedure Attachments, Ecolab Library, Client Libraries, Print Maintenance, Product Information, and Ecochexx.Net. The "Print Maintenance" item is highlighted.

The "Procedure Documentation" section includes a form with the following fields:

- Print: Procedures (dropdown menu)
- Client: Select A Client (dropdown menu)
- Facility: All (dropdown menu)
- Area: Procedures (dropdown menu)
- Item: No Plant Items Defined (dropdown menu)
- Author: All (dropdown menu)
- Type: Ecolab Library, Client Libraries (dropdown menu)
- Version: Approved Procedure (dropdown menu)
- Display:

Buttons for "Save Print Order" and "Create Document" are located at the top right of the form. Below the form is a table with the following columns: Select, Procedure Ref, Frequency, Plant Item, Version, and Status. The table is currently empty. "Move Up" and "Move Down" buttons are positioned to the right of the table.

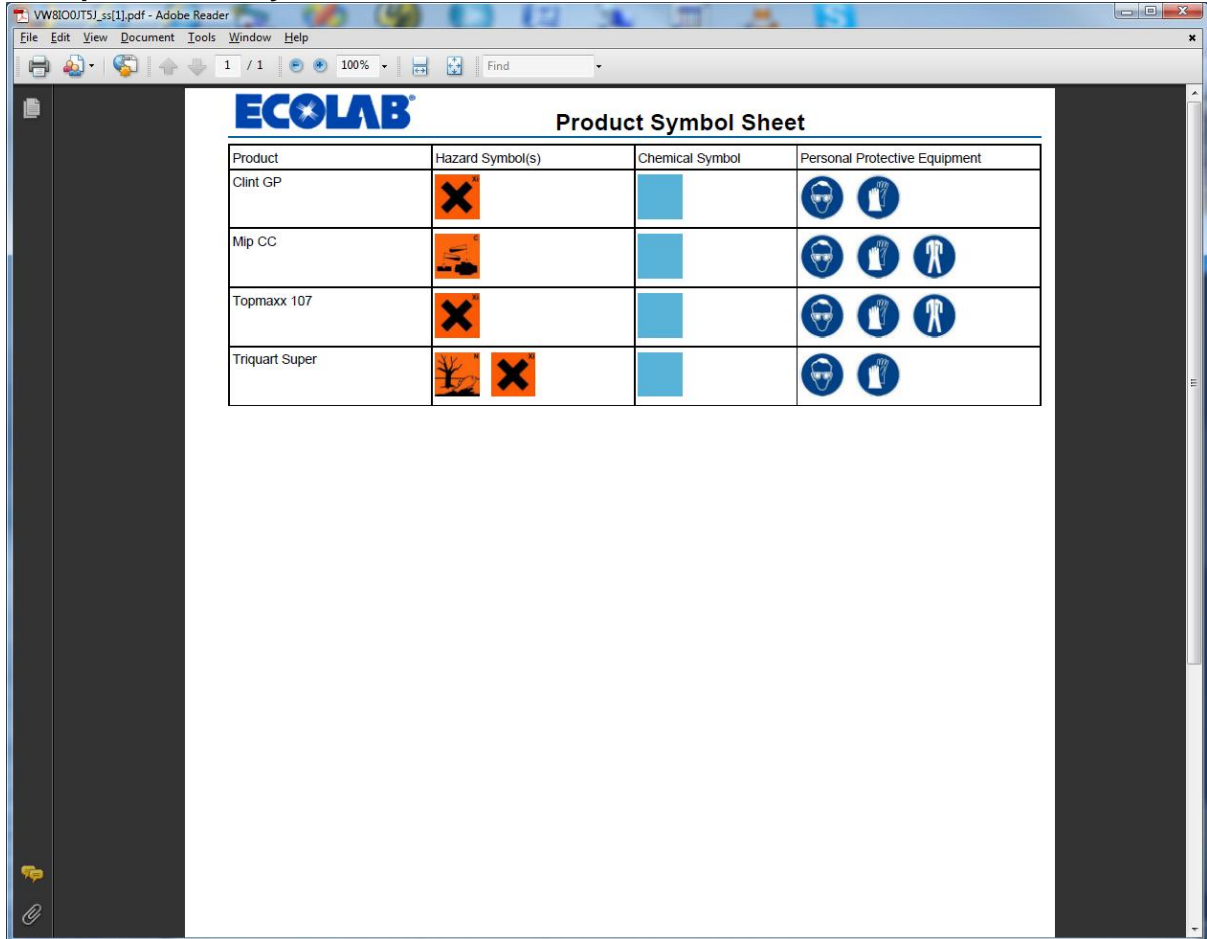

The footer of the page includes the Ecolab logo and a "C-O-M-O-D-O AUTHENTIC SITE SECURED BY SSL" badge. The browser's status bar at the bottom indicates "Internet | Protected Mode: On" and a zoom level of "100%".

Product Symbol Sheets.

The print functionality has also been extended to allow a user to print out the list of products used in the associated procedures. To produce this additional documentation, ensure that the “Product Symbol Sheet” option is checked on the print options screen.

The completed symbol sheet is available as a separate download.

Example Product Symbol Sheet.

Product	Hazard Symbol(s)	Chemical Symbol	Personal Protective Equipment
Clint GP			
Mip CC			
Topmaxx 107			
Triquart Super
